### YoY changes

#### **Gross profits**

 Gross profits increased mainly due to an increase in net gains on debt securities, partially offset by a decrease in net interest income, reflecting a decline in interest rates.

#### **G&A** expenses

 G&A expenses increased due to increases in expenses for overseas operations because of the expansion of overseas business and higher expenses for global financial regulatory compliance purposes.

#### Total credit costs

 Total credit costs improved due to an increase in the reversal of allowance.

#### Profits attributable to owners of parent

 Profits attributable to owners of parent increased ¥76.0bn mainly due to an improvement in net periodic cost of retirement benefits and an increase in net extraordinary gains on sales of equity in KS's subsidiary, partially offset by a decrease in net gains on equity securities.

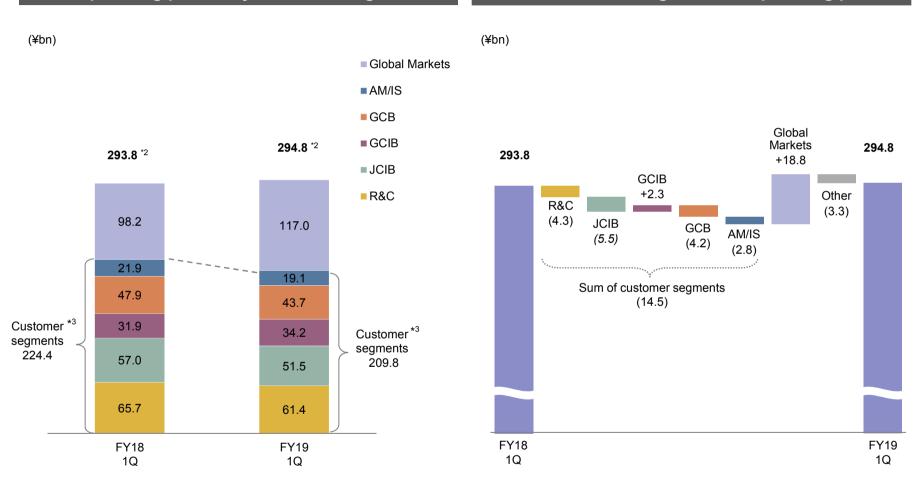

<sup>\*1</sup> Credit costs for trust accounts + Provision for general allowance for credit losses + Credit costs (included in non-recurring gains (losses)) + Reversal of allowance for credit losses + Reversal of reserve for contingent losses included in credit costs + Gains on loans written-off

This document contains forward-looking statements regarding estimations, forecasts, targets and plans in relation to the results of operations, financial conditions and other overall management of the company and/or the group as a whole (the "forward-looking statements"). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimations, forecasts, targets and plans regarding future events, certain assumptions have been made. Accordingly, due to various risks and uncertainties, the statements and assumptions are inherently not guarantees of future performance, may be considered differently from alternative perspectives and may result in material differences from the actual result. For the main factors that may affect the current forecasts, please see Consolidated Summary Report, Annual Securities Report, Disclosure Book, Annual Report, and other current disclosures that the company has announced.

The financial information included in this financial highlights is prepared and presented in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"). Differences exist between Japanese GAAP and the accounting principles generally accepted in the United States ("U.S. GAAP") in certain material respects. Such differences have resulted in the past, and are expected to continue to result for this period and future periods, in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP. For example, differences in consolidation basis or accounting for business combinations, including but not limited to amortization and impairment of goodwill, could result in significant differences in our reported financial results between Japanese GAAP and U.S. GAAP. Readers should consult their own professional advisors for an understanding of the differences between Japanese GAAP and U.S. GAAP and how those differences might affect our reported financial results. To date, we have published U.S. GAAP financial results only on a semiannual and annual basis, and currently do not expect to publish U.S. GAAP financial results for the period reported in this financial highlights.
