In accordance with the provisions of Article 52-25 of the Banking Act of Japan, Mitsubishi UFJ Financial Group (MUFG) adopts the “International regulatory framework” to calculate its consolidated capital adequacy ratio based on formulas contained in the standards for a bank holding company to assess its consolidated capital adequacy ratio in light of the assets it owns on a consolidated basis (Notification of the Financial Services Agency No. 20, 2006; referred to hereinafter as the “FSA Holding Company Capital Adequacy Notification”).

In accordance with the provisions of Article 52-25 of the Banking Act of Japan, MUFG adopts the “International regulatory framework” to calculate its leverage ratio based on the formulas contained in the standards for determining soundness relating to leverage, which are established as a supplementary indicator for the standards for a bank holding company to assess its consolidated capital adequacy ratio in light of the assets it owns on a consolidated basis (Notification of the Financial Services Agency No. 12, 2019).

In accordance with the provisions of Article 52-25 of the Banking Act of Japan, MUFG adopts the “International regulatory framework” to calculate its consolidated liquidity coverage ratio and consolidated net stable funding ratio based on the formulas contained in the standards for determining soundness in liquidity management, which are established as standards for a bank holding company to determine the soundness of management of the bank holding company and its subsidiaries and other entities, and should also be referred to in order to determine the soundness of bank management (Notification of the Financial Services Agency No. 62, 2014; referred to hereinafter as the “FSA Holding Company Liquidity Ratio Notification”).

As an independent audit with regard to the calculation of the consolidated capital adequacy ratio and leverage ratio, MUFG receives agreed-upon procedures services by Deloitte Touche Tohmatsu (DTT) LLC in accordance with “Practical Guideline on Agreed-Upon Procedures Services for the Capital Ratio and Leverage Ratio Calculation” (JICPA Professional Services Practical Guideline 4465). With regard to part of the internal controls structure governing calculation of the consolidated capital adequacy ratio and leverage ratio, MUFG received a report from DTT LLC, which conducted certain procedures as deemed necessary by MUFG. The procedures conducted by the independent auditor were not part of an audit of the financial statements or an audit of internal controls. In addition, we did not receive any audit opinion or conclusion with regard to the consolidated capital adequacy ratio or leverage ratio themselves, or to our internal controls structure governing the calculation of the related consolidated capital adequacy ratio or leverage ratio.

SCOPE OF CONSOLIDATION

Notes on the scope of consolidation

Differences between those companies belonging to the corporate group (hereinafter, the “holding company group”) to which the calculation of consolidated capital adequacy ratio as stipulated in Article 3 of the FSA Holding Company Capital Adequacy Notification is applicable and those companies that are included in the scope of consolidation for accounting purposes	Paragraph 1 of Article 3 of the FSA Holding Company Capital Adequacy Notification states that “the provisions of Paragraph 2 of Article 5 of the Regulation on Consolidated Financial Statements shall not apply” to “financial subsidiaries” of a bank holding company. Moreover, Paragraph 3 of the said Article 3 states that “insurance-related subsidiaries” of a bank holding company “shall not be included in the scope of consolidation.” In addition, with regard to affiliated companies engaged in financial operations, the FSA Holding Company Capital Adequacy Notification states that, provided certain conditions are met, such companies “can be included in the scope of consolidation and in the calculation of the consolidated capital adequacy ratio using pro rata consolidation” (under which only those portions of the affiliated company’s assets, liabilities, income and expenditures that are attributable to the bank holding company or any consolidated subsidiaries with investments in the said affiliated company are included in the scope of consolidation). MUFG had no companies to which the above exception applied as of September 30, 2023, or September 30, 2024, and there were no differences between those companies belonging to the “holding company group” and those companies that are included in the “scope of consolidation for accounting purposes.”
Number of consolidated subsidiaries, and names and principal businesses of major consolidated subsidiaries of the holding company group	252 companies as of September 30, 2023; 340 companies as of September 30, 2024 MUFG Bank, Ltd. (banking business), Mitsubishi UFJ Trust and Banking Corporation (trust/banking business), Mitsubishi UFJ Securities Holdings Co., Ltd. (securities business), etc.
Number of affiliated companies engaged in financial operations which are subject to Article 9 of the FSA Holding Company Capital Adequacy Notification, and names, amounts of total assets and net assets shown on the balance sheet, and principal businesses of affiliated companies engaged in these financial operations	Not applicable as of September 30, 2023 and 2024
Names, amounts of total assets and net assets shown on the balance sheet, and principal businesses of companies belonging to the holding company group that are not included in the scope of consolidation for accounting purposes, and of companies not belonging to the holding company group but included in the scope of consolidation for accounting purposes	Not applicable as of September 30, 2023 and 2024
Outline of restrictions on transfer of funds or equity capital within the holding company group	As of September 30, 2023 and 2024, transfer of funds or capital within MUFG is conducted with all due consideration given to the appropriateness of each action. We give priority in ensuring that each group company maintains sufficient capital level for legal and regulatory compliance purposes. Care is also taken to ensure that actions do not compromise sound and proper operations, while eliminating negative effects on payment capacity, liquidity or profitability.

Companies that are deficient in regulatory capital and total regulatory capital deficiencies

Names of any other financial institutions, etc., classified as subsidiaries or other members of the bank holding company that are deficient in regulatory capital, and corresponding total regulatory capital deficiencies	Not applicable as of September 30, 2023 and 2024

Notes: 1. When determining default under the Internal Ratings Based Approach, an assessment is made of whether claims are classed as "claims against bankrupt or de facto bankrupt borrowers," "doubtful claims," or "claims in need of special attention," based on the internal ratings system and the asset evaluation and assessment system, in accordance with the stipulations of Paragraph 1 of Article 205 of the FSA Capital Adequacy Notification.
2. When determining default under the Standardized Approach, an assessment is made of when claims are classed as exposures past due for three months or more, in accordance with the stipulations of Paragraph 1 of Article 71 of the FSA Capital Adequacy Notification.

Expected resolution policy				
The MUFG Group's preferred resolution policy is the Single Point of Entry (SPE) approach. Specifically, it is expected that if any financial crisis occurs at MUFG Bank, Ltd., Mitsubishi UFJ Trust and Banking Corporation or Mitsubishi UFJ Morgan Stanley Securities Co., Ltd., material subsidiaries, the crisis will be resolved under legal bankruptcy procedures, with losses concentrated into Mitsubishi UFJ Financial Group, Inc., the holding company, under the initiative of relevant authorities, while the material subsidiary that has restored the soundness will be transferred to go under the umbrella of the successor holding company sponsored by the Deposit Insurance Corporation of Japan, and then stay in business as normal.

Causes of significant differences from the leverage ratio at the end of interim fiscal 2023

The increase in the leverage ratio is mainly due to the increase in the amount of equity resulting from the increase in retained earnings and net unrealized gains (losses) on available-for-sale securities.

EVALUATION OF THE CONSOLIDATED LIQUIDITY COVERAGE RATIO LEVEL

MUFG's consolidated liquidity coverage ratio is well above the minimum requirement (100%). MUFG does not expect the outlook for the consolidated liquidity coverage ratio to diverge significantly from the current level. The actual value of the consolidated liquidity coverage ratio does not differ significantly from the initial projection.

COMPOSITION OF THE TOTAL HQLA ALLOWED TO BE INCLUDED IN THE CALCULATION

There are no significant changes in the location and composition of the HQLA allowed to be included in the calculation in terms of currency, asset type and other attributes.

There are no significant currency imbalances between the total HQLA allowed to be included in the calculation and the net cash outflows in major currencies (currencies for which total liabilities denominated in any given currency account for 5% or more of MUFG's total liabilities on a consolidated basis).

OTHER MATTERS CONCERNING THE CONSOLIDATED LIQUIDITY COVERAGE RATIO

1. MUFG has adopted the Special Provisions Pertaining to Qualifying Operational Deposits under Article 28 of the FSA Holding Company Liquidity Ratio Notification. The scope of application of the Special Provisions Pertaining to Qualifying Operational Deposits and the Valuation Method for Qualifying Operational Deposits are as follows.
 - a. Scope of application of the Special Provisions Pertaining to Qualifying Operational Deposits
MUFG has applied the Special Provisions Pertaining to Qualifying Operational Deposits to certain borrowings from the trust assets (trust accounts) of pension funds and other entities for the domestic network, and to certain trust assets such as funds for the overseas network, both as part of its custody services.
 - b. Valuation Method for Qualifying Operational Deposits
MUFG periodically conducts a valuation of qualifying operational deposits assuming a certain amount will remain in trust accounts.
2. MUFG has not applied "the minimum required amount of additional pledged assets upon a change in fair value based on the Scenario Approach" on a consolidated basis, under Article 37 of the FSA Holding Company Liquidity Ratio Notification.
3. MUFG has included cash outflows related to small consolidated subsidiaries in other contractual cash outflows under Article 59 of the FSA Holding Company Liquidity Ratio Notification.
4. When calculating the consolidated liquidity coverage ratio (daily average value), daily data is not used for the following items, etc.
 - a. "Cash outflows related to small consolidated subsidiaries" of MUFG
Monthly or quarterly data is used.
 - b. High-quality liquid assets, cash outflows, and cash inflows for some overseas offices
Monthly data is used.

OTHER MATTERS CONCERNING THE CONSOLIDATED NET STABLE FUNDING RATIO

- MUFG has not applied the “Special Provisions Pertaining to Interdependent Assets and Liabilities” under Article 99 of the FSA Holding Company Liquidity Ratio Notification on a consolidated basis.
- MUFG’s consolidated net stable funding ratio is well above the minimum requirement (100%).
- MUFG does not expect the outlook for the consolidated net stable funding ratio to diverge significantly from the current level.
- The actual value of the consolidated net stable funding ratio does not differ significantly from the initial projection.

TOP RISK

MUFG and its major subsidiaries control risk by taking a preventative approach of identifying the top risks and establishing the necessary countermeasures in advance. If risks do materialize, the situation is managed so as to enable a flexible response. Moreover, senior management discusses top risk to share risk awareness and develop effective countermeasures.

Major Top Risks

Risk events*	Risk scenarios
Decline in capital sufficiency / Increase in risk assets	<ul style="list-style-type: none"> Our capital management may be adversely affected by an increase in unrealized losses on debt securities due to a rise in interest rates globally.
Foreign currency liquidity risk	<ul style="list-style-type: none"> Deterioration in market conditions may result in a depletion of foreign currency funding liquidity and an increase in our foreign currency funding costs.
Increase in credit costs	<ul style="list-style-type: none"> Sudden deterioration in global economic activities may result in an increase in our credit costs. Deterioration in the credit quality of particular industries or counterparties, to which we have relatively larger exposures, may result in an increase in our credit costs.
IT risk	<ul style="list-style-type: none"> Cyber-attacks may result in customer information leakage, suspension of our services, and reputational damage. System failures may result in our payment of financial compensation and damage to our reputation.
Risks relating to climate changes	<ul style="list-style-type: none"> If our efforts to address climate change-related risks or to make appropriate disclosure are deemed insufficient, our corporate value may be impaired. Our credit portfolio may be adversely affected by the negative impact of climate change on our borrowers and transaction counterparties.

Concept of top risks

- Risks are defined as the losses that MUFG would incur as a result of each risk scenario materializing. The materiality of a risk is determined based on the impact and probability of risk occurrence (external and internal factors).
- Risks that MUFG believes require priority attention over the next one year period are defined as top risks (including risk events having the potential to have a relatively high probability of occurrence. Moreover, including risks that are not only limited to the quantifiable ones, but those that could materially affect MUFG's business in the future because of possible adverse effects on MUFG's strategies or reputation).
- MUFG creates a risk map to comprehensively grasp specified top risks, and makes use of it for forward-looking risk management.

Note: The table shown above only describes some of the risks that MUFG believes are material. Please note that other risks not identified in the above table could materially affect MUFG's operating results. Please refer to other disclosure materials such as Annual Securities Report, Quarterly Securities Report, Form 20-F, and Form 6-K for more details on MUFG's and its subsidiaries' risk information.
